## **Inventurus Knowledge Solutions Achieves ISO 27001:2005 Certification**

*Adherence to Internationally Recognized ISO Standards Demonstrates Commitment to Information Security Management System by Leading Outsourcing Company*

New York, December 22, 2008 – Inventurus Knowledge Solutions, Inc., today announced that it has achieved the ISO 27001:2005 Certification at its facility in Mumbai, India. Inventurus obtained the ISO 27001:2005 Certification from TUV SUD, one of the world's leading independent testing and assessment services firm. Inventurus achieved the stringent International Standards stipulated by TUV SUD and German Accreditation Council (DAR), in Information Security Management for Healthcare Revenue Cycle Management, Legal Process Outsourcing as well as all Support functions.

Compliance with the ISO 27001 standard provides assurance that Inventurus uses world-class practices to establish and maintain information security, particularly for sensitive protected health information (PHI) in its healthcare services division and confidential, attorney-client privileged material in its legal services division.

ISO 27001:2005 is a global standard for Information Security Management, designed to ensure the selection of adequate and proportionate security controls that protect information assets. ISO 27001:2005 specifies the requirements for establishing, implementing, operating, monitoring, reviewing, maintaining and improving a documented Information Security Management System within the context of the organization's overall business risks. The successful ISO 27001 certification strengthens Inventurus' position as one of the leading outsourcing companies in the Healthcare and Legal industry segments.

"Achieving the ISO 27001 certification demonstrates our commitment to the highest standards of information security in keeping with the requirements of our global clients. Protecting customer information is a top priority for Inventurus, and we strive to safeguard the integrity, availability and confidentiality of our client's data and of their business partners", said Mr. Anuraag Srivastava, Chief Operating Officer of Inventurus Knowledge Solutions. "The stringent process has strengthened our set of standards for internal information security management and company-wide processes for protecting information assets. Employees throughout Inventurus' worldwide offices have improved their security awareness with client data integrity placed at the highest priority."

### **About Inventurus Knowledge Solutions**

Inventurus Knowledge Solutions is a global business process outsourcing company that offers focused cost and process optimization solutions to clients in the healthcare and legal industries.
